Dear Mr. Salzman,

Please escuse my haste and brevity. I've little time.

What you say you see is not new. A man named Ray Marcus in Los Angeles was researching it in 1966. He's inactive now.

Far and away the best informed and one of the two who have done most work on it is Gary Mack, 4620 Brandingshire Place, Fort Worth, TX 76133.

His associate is named Jack White.

You are not impertinent. I'm 79, with many medical problems, and more to do than I can find time for.

If your mother went to school with Jerry Ford, she migh be interested in one special expose of him in my Whitewash IV.

That one in particular. I did it in all my JFK assassination books where it was appropriate.

Best wishes,

Harold Weisberg
